Mankind is the best form of life among all living species. There are 9 easy ways to reach the God.

Sravanam Keerthanam Vishnoham! Smaranam Padasevanam! Archanam Vadanam Dasyam! Sakyam Aathmanivedanam!

Among them Archana (praying the God) is the most important one. Most notable is worshipping God in the form of Idol in a temple, because this form of worship is believed to bring welfare to humanity. Temples provide a great opportunity to worship the God for people from all walks of life without any barriers of caste, creed or religion.
